## CAPTAIN BEN PATTERSON

Resigned Yesterday as Master of the  
Steamer Courier and Was Presented  
With a Handsome K. of P.  
Charm By the Boat Crew.

Captain Ben Patterson resigned his  
position as Captain of the Courier yes-  
terday, after about fifteen years' serv-  
ice.

While Captain on this boat, every  
man, woman and child to whom he had  
done a kindness will regret his leav-  
ing such a responsible position.

He was always careful and caution-  
ary in his line of duty. His only thoughts  
were the pleasure of his passengers  
and the welfare of his boat, and leaves  
his post with many regrets to the  
traveling public.

The crew, in their appreciation of  
their association with him, presented  
him a handsome K. of P. charm.

The presentation speech was made  
by Col. Lammie Parnell, of this city,  
whose remarks were as follows:

"Capt. Patterson, of the Steamboat  
Courier, we meet here today upon an  
occasion that is sad to your comrades.  
They appreciate your value to them as  
well as to the public, and in your de-  
parting you do so leaving behind many  
regrets and sad hearts."

"About six weeks ago you joined one  
of the greatest orders in existence."

"While going through you found how  
easily a man might falter by the way-  
side; but when they saw you faltering  
they lifted you on your feet and, bid-  
ding you God speed, sent you on your  
way rejoicing. These comrades and  
crew, in their appreciation of your kind-  
ness and consideration, present to you  
this handsome charm, emblematic of the  
Order of the Knights of Pythias. Ac-  
cept from them, that you might always  
wear it and remember in so doing, that  
it is emblematic of that true brotherly  
love and affection that only those on  
the K. of P. feel toward each other."

YE  
Corn Raisers

In this day of progressive farming, it has become absolutely  
necessary to secure the largest possible returns from the land,  
and as corn has become the most important and valuable crop,  
special attention should be given to the selections of both the  
seed and the planter. We believe that in selling you the John Deere  
"Oblique Selection" two horse corn planter, we are giving you the  
very best planter on the market today. "Oblique Selection" is  
the name given this perfected seed dropping device which repeated  
tests show is as far ahead of the old edge drop as the edge drop  
was ahead of the round hole plate. It takes its name from the fact  
that the surface of the hopper bottom and the openings for the  
seed cells are oblique or sloping. With the old edge drop, the  
kernels had to be tipped on edge before they could enter the cells  
at all. The weight of the corn in the hopper interfered with this  
action—consequently cut down the accuracy. The John Deere  
Planter overcomes all these old fashioned troubles, and we would  
like you to come in during this week's Opening Demonstrations  
and hear about it and see the machine. There's an expert here who  
can answer all your questions.

## PERTINENT PARAGRAPHS.

President Wilson abhors the "spoils" system, but his repugnance to it is not strong enough to stop the steady elimination from office of everyone appointed under a Republican Administration.

"There is still a strong demand for regulation," says an Eastern contemporary. Is there anything left to regulate, unless it be the regulators who are always claiming a monopoly of the good intentions in public life?

One railroad company pays 27 per cent. of all the taxes in New Mexico. That looks like a whole lot better for the people than government ownership. If New Mexico owned the railroad, it would take more than 27 per cent. of all the taxes to make up the annual loss.

Many immigrants complain that prices are higher in America than in Europe, but whoever heard of emigrants going from a country of high to one of low prices? They leave Europe because the price paid for their services was lower than the sum they can get in the United States.

What has become of the old Democratic argument that a reduction in the tariff would automatically abolish the trusts? The proposed campaign is really a confession that Republicans were right when saying that combines would flourish as well under a free trade as under a protective tariff.

The people of the United States will soon learn the fact that a country can only prosper by promoting production, and that the producer is of more consequence in a national economic scheme than the consumer. The consumer is always ready to growl, but the producer must be tempted to exert himself to meet the requirements of the growing class, whose chief accomplishment is fault finding.

"The average business man," says the President, "is convinced that the ways of liberty are also the ways of peace and the ways of success as well." Of course, but the difficulty is to get that slab of sound common sense into the skulls of politicians who believe that prosperity can only be promoted by regulations and restrictions based on the assumption that all who succeed in business are necessarily dishonest.

A Democratic orator recently asked: "Where is the arrogance of 'big business'?" Where is the cry of panic? There being no response, he informed his hearers that "Wilson lashed the dogs of disaster to their kennels." Just what "the dogs of disaster" look like it would be hard to tell, but there is an impression abroad that armies of unemployed might fairly be characterized as symptoms of disaster. When Wilson succeeds in keeping them out of sight the people will admit that he has accomplished something.

If the majority judged of tariff's not by the statements of office-seeking politicians, but by the simple test of the relative prosperity which each enjoyed under them, the Republican party would soon be compelled to close up its ranks and settle all differences on side issues. Little questions should never disrupt big parties, and, compared with the tariff, all other problems are merely academic or sentimental trifles. These have their place in the scheme of things, but they can be discussed more satisfactorily in the leisure hours of prosperity than in the discontent of depression. There is a wonderful healing for social ills in good times and the right kind of tariff is the best promoter of good times.—San Francisco Chronicle.

## NEVER AGAIN.

A Democratic Indiana farmer shipped a lot of cattle to Chicago and found the stock yards full of Canadian cattle and prices lower, so that he lost \$600 on his shipment. Returning home he paid the same old price for steak for his table. He says he will never vote the Democratic ticket again.—Marion (La.) Register.

## COMMERCIAL MAP BUTCHERED AND PARCELED.

Philadelphia Public Ledger says: There were three controlling reasons why the commercial map of the Union was butchered and parceled into the twelve reserve districts. They were W. G. McAdoo, D. F. Houston and John Skelton Williams. Mr. McAdoo, it is safe to assume, decided to make New Orleans the tail of the Atlanta kite. Mr. Houston gave Missouri two reserve cities, although the selection of Kansas City over Denver is an absurdity. Mr. Williams is a Richmond man. No other reasonable explanation can be given of the preference accorded Richmond over Baltimore and Washington. Dallas can rejoice because Postmaster General Burleson was active in its behalf. Eleven of the twelve banks are nearer the Atlantic than the Pacific Ocean.

## MURDER AND CAPITAL PUNISHMENT.

Recently there has been an unusual amount of man killing in Warren County. Somebody took the trouble a few days ago to look up the official records to find out how long it had been since capital punishment had been inflicted on a murderer in the county. It was found that the last legal execution took place forty-eight years ago.

A death verdict has been returned in one case since that time, but a petition to the Governor resulted in commutation of the sentence to life imprisonment. Hundreds of killings have been recorded since the date of the last legal execution, but with the one exception no jury has ever imposed the capital penalty on a murderer. In the same time no doubt there have been acquittals in flagrant cases.

So far as most of the counties in Kentucky are concerned capital punishment might as well be abolished, for it requires a search of the records or an interview with the oldest inhabitant to fix the date of "the last hanging" by law. That capital punishment is so seldom inflicted in the average county is not so serious as the fact that murderers so frequently manage to evade legal penalty of any kind. Except that "while there is life there is hope" there is not much choice between quick extinction in an electric chair and a lingering death in a penitentiary. The trouble here in Kentucky is that our juries seem little impressed with the sanctity of human life.

There are persons who are conscientiously opposed to the infliction of capital punishment. This is demonstrated on almost every occasion when a jury is being selected to try a charge of murder. Such persons are not eligible, of course, to sit on juries in cases of that kind, but it is to be feared that many of those who profess to have no such conscientious scruples lack the courage to stand up for their convictions in the jury room and to hold out for adequate penalties.

There is too much killing in Kentucky. It may not be because of there being too little capital punishment, but it unquestionably is due in some part to the ease with which the murderer who has money and friends can establish a case of self-defense to the satisfaction of a chicken-hearted jury.—Courier-Journal.

"Ma," said little Harry, "I'll tell you what you ought to do."

"What do?" his mother asked.

"You ought to go over to live in some country where the people are Mediterraneanans."

"What on earth ever put such a thought as that into your dear head, darling?"

"Cause over there they think all fat women are beautiful."

"Harry! If you dare to open your mouth again this evening you will be sent to bed with nothing to eat."

## A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Blues, Ala.—"I must confess," says Mrs. Edna Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

#### A MEDICINE OF MERIT.

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for women's ills.

#### EAT AND BREATHE ONIONS TO OBLITERATE DISEASE.

The use of plenty of onions will drive, among other things, contagious diseases out of any city, says Dr. Mary Walker. Here are the directions: Eat plenty of them stewed, boiled, fried or raw. Keep the fumes of onions continually permeating the atmosphere. Spread onions in the alleys, on the lawn and any other place where it might appear they would do good. Dr. Walker said onions were particularly effective against smallpox. The use of the vegetables in two cities at least have proven her contention correct.

#### SKIN ERUPTIONS

Evidence of Impure Blood and a Run-Down Condition.

When the blood becomes thin, poor, devitalized nature cries out through such external evidence for help, and the safest, surest and most helpful remedy we know is Vinol.

This is because it is a combination of the two most world famous tonics—the medicinal curative elements of cod liver oil (without the oil) and tonic iron for the blood. Vinol strengthens the digestive organs, creates a hearty appetite, purifies and enriches the blood, creates strength.

Mrs. Helen Wingate, St. Louis, Mo., says: "I was in very poor health, nervous and run-down, and nothing in the way of medicine did me any good until my druggist recommended Vinol. It built up my health, restored my strength and I feel that I owe my life to Vinol. I cannot praise it too highly."

We say positively there is nothing like Vinol to purify and enrich the blood and build up weak, run-down people. If it should fail in your case we will return your money. J. C. Deane, Druggist, Mayville, Ky.

P. S.—Our Skin Salve is truly wonderful for Eczema. We guarantee it.

#### HOW MUNICIPAL OWNERSHIP WORKS.

The municipal ownership faultists obstinately refuse to apply the test of experience to their theories, says the Kansas City Journal. While crying about the theoretical benefits of municipal ownership, these enthusiasts close their eyes to the scattered wrecks of the experiments that abound in most of the larger cities of the country. Here in Kansas City the municipally owned water works is an instance in point. It has cost the taxpayers millions of dollars, with no adequate return either in better service or reduced rates. The plant is bonded now for more than it was ever worth and a large part of the maintenance charges are paid by bond issues from time to time. It is an utter and complete failure as a self-sustaining business establishment, although it affords political refuge for some hundreds of the "bores" who figure actively in various factional camps.

Just now the people are aroused to the outrageous cost of the municipal asphalt paving plant. To quote from a recent news item: "At almost every meeting of the board of public works protests are filed, and the private mail of members of the board is filled with complaints. Yesterday, Aldermen Brown of the Thirtieth ward notified the board that taxpayers in his ward would meet at Thirty-sixth street and Prospect avenue tonight to formally protest against being assessed 75 cents a square yard for repairs made by the municipal plant to municipal pavement on South Benton boulevard, Prospect avenue, Chestnut avenue and Montgall avenue in the vicinity of Thirty-fifth and Thirty-sixth streets."

The municipal asphalt paving plant has never paid. It has never given the public prompt and efficient service. It has cost more to repair pavements by using municipally owned equipment than by employing private paving companies. And it has been shown that the work it has done was not up to that standard of private concerns. Everybody in Kansas City posted on city affairs knows this is true but the little band of municipal ownership faultists are unwilling to subject their cherished theories to practical comparison. The reason why municipal ownership enterprises fail is because they are in charge of political hangers-on. When jobs are given in reward for political service instead of for skill and efficiency the work cannot be well done. The "bores" who draw pay from municipally owned utilities do not, as a rule, take much interest in their work. They are more concerned in preserving their political influence. The forcing of a utility business upon a city is not a job done. The foreman of a city job has little or no authority and his men are apt to resent him. It is no business of the forcing and do their work as they choose, only so as they can get in the long political haul to "get" them from the consequences of failure. A shoddy mess and inefficiency.

A man's favorite way of saying nothing is to write a long letter to a friend.

## Winter Chills Breed Kidney Ills

Chilly, damp, changing weather is hard on the kidneys. Even more irritating are colds, grip, pneumonia, tonsillitis, quinsy and other infections. The kidneys get congested and inamed, and this causes backache and disordered kidney action. Though serious in its latter stages, kidney disease is not hard to conquer if a good kidney remedy is used when the first signs of kidney trouble are noticed.

The best recommended kidney remedy in the world is Doan's Kidney Pills. You hear it everywhere. Get a box.

## Spring Is Breaking; Backs Are Aching

Backache is often the first sign of some form of kidney disease that has been coming on for months. Look for the other signs—lame back, sharp pains when stooping or lifting, dizzy spells, nervousness or despondency, with irregular, painful or distressing action of the kidneys; if these signs exist, decide that the kidneys need attention, ere the trouble turns to gravel, dropsy or Bright's disease.

Read this home testimony and then give Doan's Kidney Pills a trial.

### Maysville People Testify

### Maysville Cases Self-Told

#### POPULAR STREET.

Henry Hattenstein, blacksmith, "Popular street, Maysville, says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equalled them. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The benefit has been permanent."

#### EAST FRONT STREET.

Mrs. Della Lunsford, 328 E. Front street, Maysville, says: "I had a sharp, aching pain through my kidneys and a dragging-down feeling through my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy. My feet began to swell and my hands also were at times the same way. Doan's Kidney Pills, procured at Wood & Son's Drug Store, cured me."

#### EAST SECOND STREET.

Frederick Dressel, 1235 E. Second street, Maysville, says: "I was troubled with inflammation of the bladder and annoyance from my kidneys. The passage of the kidney secretions were irregular and I had a severe pain across the small of my back which interfered with my duties. When a friend advised me to try Doan's Kidney Pills, I got a box at the Wood & Son's Drug Store. They gave me prompt relief. Since then I have had no trouble."

#### GRATEFUL PRAISE.

Mrs. Dora McElford, Maysville, says: "I had been feeling poorly for some time, before I knew that my kidneys were at fault. I was nervous and dizzy and my back and head ached. I rested poorly and mornings I was all tired out. I read in a local paper how a neighbor had been cured of kidney trouble by Doan's Kidney Pills. I used them and before long I was better. I was able to sleep well and they improved my health."

#### EAST SECOND STREET.

M. C. Chisholm, 317 E. Second street, Maysville, says: "There was a time when my kidneys were badly disordered and I was annoyed by many symptoms of kidney complaint. Doan's Kidney Pills, procured at Wood & Son's Drug Store, removed the trouble and my good health since then is evidence of their merit. I have seen many other cases where Doan's Kidney Pills have proven their worth. My former endorsement of this remedy still holds good."

#### COMMERCE STREET.

Mrs. John Wallingford, 108 Commerce street, Maysville, says: "I am glad to confirm the statement I gave some years ago recommending Doan's Kidney Pills. Several of my neighbors have been cured of kidney trouble by this remedy and one of my family was also cured of a serious case of kidney complaint after other medicines had failed. Every once in awhile I get a box of Doan's Kidney Pills at Wood & Son's Drug Store and use them. In that way I keep my kidneys in proper working order and ward off any signs of kidney trouble."

And some folks use it toward money and fame.

Are you eating right for health?

## Grape-Nuts

FOOD

is delicious with cream; easy to digest—in fact, partially predigested; and perfect in nourishment.

It contains all the nutrition of wheat and barley including the vital mineral salts (phosphate of potash, etc.) in just the right proportion as grown in the grains.

A regular ration of Grape-Nuts in place of rich, greasy, indigestible food generally shows a definite gain.

Doubt it? Have a try!

"There's a Reason" for Grape-Nuts

—sold by Grocers everywhere.
